Aim:
To improve pharmacist understanding of how they can influence and improve the transfer of care to community IV therapy

Objectives:
At the end of the master class participants will:
- have gained a better understanding of how community IV services are commissioned and provided
- know how to evaluate how safely patients are transferred from their Trust to community IV therapy
- explore ways to improve the safe transfer of these patients

Target Audience:
Pharmacists who:
- Manage clinical services in a hospital where patients are discharged home to receive IV therapy in the community
- Antimicrobial pharmacists and OPAT pharmacists providing advice on IV therapy that is to be delivered in the community
- Community Health Services Pharmacists providing advice to Community IV therapy services
