Date of next meeting: 20 September 2016 NCVO
Learning Outcomes.

- Receive an update on both asthma and COPD including the associated NICE guidance. Reflect on treatment options for patients that may reduce hospital admissions and consider how this may affect your practice.
- Consider what actions you will take to improve the support you give to teams looking after respiratory patients as a result of the good practice shared.
- Understand the importance of shared decision making in Medicines Optimisation.
- Describe recent national developments and how these issues will impact on your organisation.
- Take the opportunity to share good practice and network with peers to develop your knowledge base.

Target Audience

- Pharmacists and pharmacy technicians working in community health services
- Pharmacists and pharmacy technicians commissioning community health services

Course Organisers

Medicines Use & Safety Division, Specialist Pharmacy Service: Jane Hough, Yogni Jani, Carina Livingstone, Chetan Shah, Lelly Oboh, Tracy Rogers, Helen Williams, Sandra Wolper & Julia Wright.
