Medicines Use & Safety Meeting

Thursday 14 March 2019
Venue: NCVO, London N1 9RL

WHO Medication Without Harm Challenge:
Tackling medicines safety challenges in transfer of care and adherence

Purpose of this event: To explore medicines-related issues around transfers of care in a variety of contexts. Our speakers will talk about transfer of care issues including with insulins, in paediatrics & care homes. We also plan to invite attendees to think critically about how non-adherence links with patient safety in a meaningful way.

| 10:00 | Welcome and Introductions and housekeeping                               | Barry Jubraj  
Associate Director Medicines Use and Safety(MUS)                                    |
| 10.10 | Medicines safety and non-adherence – making the link                     | Barry Jubraj & Nina Barnett  
Consultant Pharmacist & MUS                                                           |
| 10.25 | Is it any better? The ongoing challenge of non-adherence                 | Dr Christina Jackson  
King’s College London                                                               |
| 11.10 | Coffee and networking                                                   |                                                                                             |
| 11.40 | Medicines safety and non-adherence workshop                             | Barry Jubraj/Nina Barnett/Christina Jackson                                                  |
| 12.30 | Lunch and networking – a sandwich lunch will be provided                 |                                                                                             |
| 13.30 | Transfer of care (ToC) and medicines – Context setting & recent webinar  | Nina Barnett                                                                            |
| 13.35 | ToC – A patient’s experience                                            | Nigel Westwood                                                                           |
| 14.00 | ToC and care homes – the Sutton experience                               | Hai To, Sutton CCG, Surrey                                                               |
| 14.30 | Tea and Networking                                                       |                                                                                             |
| 15.00 | ToC in community paediatrics and insulin management (two presentations)  | Jacqui Ballantyne and Amy Bradley, Northumbria Healthcare                                |
| 15.40 | Panel Q&A                                                               | All Presenters                                                                            |
| 16.15 | Take away messages                                                      | Barry Jubraj/Nina Barnett                                                                    |
| 16.30 | SPS update and close                                                     | Barry Jubraj                                                                                |
Learning Outcomes

- To critically review the links between medication safety and non-adherence
- To discuss key medicines-related issues related to the ‘transfer of care’ domain of the WHO Medication Safety Challenge
- To learn from the experiences of others dealing with transfer of care issues in a variety of contexts
- To identify areas for improvement of your current service provision and start to develop an action plan to address deficits.
- To take the opportunity to share good practice and network with peers to develop and explore opportunities to collaborate.

Target Audience

- Senior NHS Pharmacists providing, managing or supporting patient facing services in any pharmacy setting
- Senior CCG Pharmacists commissioning patient facing services
- Senior Academic pharmacists training pharmacists for the future.
