Learning Outcomes

- Gain an understanding of how Community Health Services will work together with PCNs.
- Understand the implications for the pharmacy services provided in your geography.
- Learn from the experiences of others who have developed these areas of practice.
- Identify areas for improvement within your own organisation and begin to develop an action plan.
- Take the opportunity to share good practice and network with peers to develop your knowledge base.

Target Audience

- Pharmacists and pharmacy technicians working in community health services
- Pharmacists and pharmacy technicians commissioning community health services
